

MAKE IT EASIER
SAY NO TO COUGH

AG - KOFF

Ambroxol HCl + Terbutaline Sulphate + Guaiphenesin & Menthol Syrup

AG - KOFF

Ambroxol HCl + Terbutaline Sulphate + Guaiphenesin
& Menthol Syrup

Indications:

- Thinning and loosening mucus in the airways
- Clearing congestion
- To make breathing easier
- To treat wheezing and shortness of breath from lung problem

Combination of 4 medicines make breathing easier as-

Ambroxol:

Is a mucolytic which thins and loosens mucus (phlegm), making it easier to cough out

Terbutaline:

Is a bronchodilator which relaxs the muscles in the airways and widens the airways

Guaiphenesin:

is an expectorant which works by decreasing the stickiness of airway secretions and helps in their removal from the airways

Menthol:

is an organic compound which produces a sensation of coolness and relieves minor throat irritation
